## **Presidents Report**

Hi All,

Well another year is nearly done with our AGM on the 7th of March signalling the end of this year and the start of the next.

The AGM will also see the membership vote on our constitution that has been debated, consulted and rejected by the regulator and then redebated, consulted and accepted by the regulator, so finally we get to say yes or no,

thankyou to all that have contributed to this document.

Our events this year, our 40th birthday celebrations and our Corvettes Rock the Bay were both a great success due to the members that dedicated their time and effort to make them so, well done to you all.

To the members of the committee thankyou for your dedication and passion (and sometimes heated debate) at our meetings you have all made my job easy.

We have quite a few events coming up with the WA Nationals at the end of March, the June long weekend at Berri and the October long weekend at Mt Gambier, for those attending these events they will have a great time.

I will now take the time to promote "Robs Rod Run" on May 6th with the run going to Eudunda to see hot rods, large and small and then on to Nuriootpa to see another lot of special vehicles on the same theme. Should be very interesting, details in the events calendar.

Happy Vetting, Pres.

Specialising in C3 (1968-1982) Corvettes, we can do anything from routine maintenance to ground up restorations. This includes conversions to Right Hand Drive and reconversions on cars that do not meet current standards. We have a large inventory of new and used parts and panels in stock. Any parts that you require that are not in stock are normally 10-14 days away, as we place orders to America on a weekly basis.

Corvette Conversion Centre is pleased to announce that we have developed brackets to mount the RRS Rack and Pinion steering system to C3 Corvettes. This will be the perfect solution for poorly converted Corvettes or if you just want a more modern feeling steering system.

Specialising in Conversions, Restorations and Spare Parts

#### APRIL—EARLY PRINT OF NEWSLETTER

Just a notification that the newsletter will be going to print early next month as we are heading off to the Nationals in Perth.

If you would like to contribute to our newsletter (and I would love if you did!), can you please email me your article no later than 21 March 2018 to be included in Aprils Edition.

Thanks. Catherine.

Emailing of Newsletters will reduce costs to the Corvette Club. For those members who are happy to receive their newsletter via email, which means you will get it quicker too, please send an email to Catherine.Neagle@jlta.com.au

#### Memberships - due by 1st January every year

Membership Fees:	New	Renewal
Financial Member	\$85.00	\$80.00
Associate Member	\$20.00	\$20.00
Country Member	\$40.00	\$40.00

We want to keep you informed, but to do that, if you have had a change of address, please advise the Membership Officer - Gary McPhee, to ensure you continue to receive copies of the newsletter and club events. If you are making a payment by cheque or direct deposit please include your name and the reason for the payment. BSB: 105 900 Acct: 9543 73840

Club Rego No more Inspections required, however, if you need a new Log Book, they will be \$10ea

## Australia Day—2018

#### AUSSIE, AUSSIE, AUSSIE!!

#### OUI OUI OUI

Even though it was supposed to be 36 degrees { better than the 40 degrees forecast}, we had 19 cars, 42 people turn up for the day. We still had 10 corvettes with the rest opting to take cars with good ACs.

As we left McDonalds it started to rain which made for a pleasant temp to drive. The cruise took us up the freeway following the old Eagle on the Hill road down through Crafers, Piccadilly, Summertown, Oakbank, Nairne, Kanmantoo, Callington & then back down the freeway to Adelaide.

We finished back at our house for a cold Aussie Day lunch supplied by the club. We even had a visit from Hans & Val later in the afternoon. For all the predictions of the extreme heat, it ended up being pleasant so we were able to sit outside enjoying one another's company.

Thanks to all who came & enjoyed the day.

Pete & Lyn.

And, on behalf of the club, thanks to Pete and Lynda for a fantastic day with all the hard work of rolling meat and setting up their entertainment area for us prior to our arrival. Ed.

### "NO ONE KNOWS YOUR PASSION LIKE SHANNONS."

The passion, the pride of ownership, the sheer emotional attachment – no one understands it better than Shannons. So when it comes to insurance for your special car, daily drive, bike or even your home, there's only one person you should talk to – a fellow enthusiast at Shannons. And remember, you can pay your premium by the month at no extra cost.

So call Shannons for a 🚜 🦛 🏦 quote on 13 46 46.

SHARE THE PASSION

INSURANCE FOR MOTORING ENTHUSIASTS | CALL 13 46 46 FOR A QUOTE | SHANNONS.COM.AU Stannons Pty Limited ABN 91 099 692 636 is an authorised representative of AAI Limited ABN 48 005 297 807, the product issuer. Read the Product Disclosure Statement before buying this insurance. Contact us for a copy.

30th National Corvette Convention Perth

PERTH WESTERN AUSTRALIA

Easter Weekend March 30th to April 2nd 2018 A Big contingency of members are heading over to the West at Easter for the 2018 Nationals.

Book your spot quick....!

We are really looking forward to Corvettes Convene 2018!

Every Club in Australia appreciate the Sponsors who are involved in our Nationals.

We wish to acknowledge the Corvettes Convene 2018 Sponsors.

#### \* DRVEITTES ROCK TH

CRTB started early for some of us, thank you to all of those who turned up to help. A special thanks to John Pabst from New Zealand who was able to be our tie- breaking judge on a couple of the entries.

After the set up & parking over 90 corvettes, we were able to enjoy the music played by the band "RAVE ON " & the perfect weather on the day. We had voting by the public & entrants to choose the best cars from those that pre- registered. They were:-

#### PUBLIC CHOICE

1<sup>st</sup> Alan Scroop (1973 Coupe). Sponsored by Gourmet Goodies 2<sup>nd</sup> Mark Wieszyk (1963 Conv). Sponsored by Gawler Custom Specialist Joinery

3<sup>rd</sup> John Ciccarello (1960 Coupe). Sponsored by Kornacraft Sewing Centre

#### ENTRANTS CHOICE

1<sup>st</sup> Rob Comley (2011 Coupe). Sponsored by Redline Motorsports 2<sup>nd</sup> Phil Turbill (1981 Coupe). Sponsored by Northern Tree Service 3<sup>rd</sup> Alan Norsworthy (1968 Conv). Sponsored by Kornacraft Sewing Centre

Congratulations to the winners & thanks to all who came & joined in for the day.

We hope to see you there next year 2<sup>nd</sup> Sunday in February.

I would like to thank Ruth & Stu, Catherine & Lynda who's help throughout the year is much appreciated.

We would also like to acknowledge the support from Federation of Historic Motoring Clubs SA Inc, Shannons for their support, Black Canvas Photographers who donated a photo shoot, DNA Be an Individual & Stir Coffee.

## Australia Day–2018

## **BERRI JUNE LONG** WEEKEND GETAWAY

Friday 8<sup>th</sup> to Monday the 11<sup>th</sup> June

Want to join in on the fun and hopefully some winter sunshine? We're trying something a little different this year! The club is planning to getaway in the Riverland at the awesome Berri Riverside Holiday Park - (Instead of the midyear dinner) and it's proving to be popular with already a heap of people coming!

We are planning a stack of fun over the weekend from trips to a newly completed Distillery for lunch, with optional Tour and /or Tasting, Dining in Renmark taking in the beautiful River Murray set in one of the most magnificent settings, heading off on a cruise (via road) with a surprise or two as well, or simply standing around the large fire pit in the evening chewing the fat. Bring your marsh mellows, sense of humour, or make time for yourself to do your own thing. The idea is to simply chill out and have fun.

Also bringing your Corvette is optional. This will be a social weekend away with an emphasis of having fun and relaxing.

For more information, contact either Stuart or Ruth on Mob: 0418 841119 or bron-yr-aur@bigpond.com to let us know if you're coming.

#### Sean's Random Ramblings—#2

In this edition we will talk about something that most Corvette owners know something (however small) about, the upside down leaf spring. Since the late C3's Corvette started putting upside down leaf springs in the American sports car. The single upside down leaf is made from Fibre Reinforced Plastic and Chevrolet turned the testing machine off after they had done 2 million cycles without failure. The Corvette isn't the only car that uses them, Volvo, Porsche, VW and Fiat have also used them in some models.

Why do Corvette use the spring, low weight and they are actually quite easy to fit into the tight confines of the shrink wrapped sports car.

So what are the ups and downs (pun intended) of the single plastic leaf? the corvette leaf bolts in the centre of the car and then to each side of the suspension. You have an independent suspension that is effectively linked together, albeit with a solid centre mount. This type of suspension has what is termed "cross talk" where energy travels from side of the spring to the other. This can be a good thing and a bad thing at the same time. The bad is the energy transfer, the good is that the spring acts like a sway bar. The Corvette engineers were happy that this meant the Vette didn't need horribly large sway bars.

Now what does this mean from a real performance perspective ? The FRP leaf has its limitations, they like smooth and they don't like rough ! Every Corvette owner knows that feeling of panic as they approach the railway crossing, and they slam on the brakes and try and pick the high line across those steel ridden bumps. The leaf spring Corvette jumps almost sideways as it goes across the lines. You can blame cross talk.

Do coilovers work better on the Vette, yes they do. Go across railway lines in a coilover equipped car and you will think your riding in a Holden Caprice, the difference is quite remarkable. When I was running a front 580 lb Z51 leaf at Collingrove Hillclimb I had endless trouble trying to stop the front end from bottoming out despite using adjustable gas shocks and higher chassis heights. I fitted front coilovers (double adjustable) with 600 lb springs and the car has never bottomed out since, even with lower front chassis height, and the car was faster. So I go back to my "go to man" who knows his chassis stuff and helps me with the car and I say "why such a big difference ?" He says that a vertical coil spring will always be more efficient than a horizontal leaf. If you want to upgrade your Z51 leaf that is say nearly 600 lbs, the race leafs are sold in rates of around 1200 lbs plus! That's what you have to do to really make a leaf work in extreme environments. Would you ever put 1200 lb springs in a coilover on a 3100 lb car - no way !

So I can hear people say, why don't the Corvette engineers put coilovers in the Corvette and be done with it if they are better ? The C4's are a royal PIA to put coilovers in, but as you go C5, C6 and c7 you can buy kits that are truly bolt in, the engineers have made it easy to do it. I would suspect that it is all about the money, they have been rolling along for over 30 years fitting leaf springs into the corvette, it's a well worn process, they know the maths and know how to make the leaf work. Building a new model car is a billion dollar exercise, re engineering a complete new suspension system would not be cheap. The engineers

would be saying, If it ain't broke don't fix it, if we leave a little bit of wriggle room in the wheel arches then the performance boys can stick their coilovers in themselves.

On Top is a Z51 sprint, underneath is a stock FE1 Spring. The higher the rate the straighter the leaf.

#### Nürburgring Bragging Rights!

Sometime in (American) Spring, the 2019 Corvette ZR1 will make a run at the record books with the seven-minute barrier being the ultimate Nürburgring goal.

If this is achieved, it will not only make the Corvette ZR1 the fastest American Car ever on the 'Ring', but will also make it faster than a Nissan GT-R Nismo, Merc Benz AMG GT R, Porsche 911 GT3 and the Lamborghini Aventador Superveloce. (Price difference on most of these cars is fairly large compared to the Corvette!)

The last run in a C6 ZR1 posted in 2011 ran a 7:19.63 lap.

Fingers Crossed!

Ed.
