# PRESIDENT'S REPORT

Hi All

As a club we are very lucky in South Australia as we are able to have a reasonably “normal” Club life with runs and dinners going ahead and our October meeting will see the return of suppers in a Covid safe form.

The October long weekend is all go and no doubt there will be another lot of Club legends created, as there normally is on these trips.

You will see in this Newsletter requirements for the November and December meetings Club Registration requirements please read them as it will help speed up the process and if you turn up without any of the required documents be prepared not to have your logbook signed.

I have had the second of my Covid injections and no side effects except for an overwhelming urge to eat cake, an urge I didn't have previously and a slight twitch, go figure.

Kegel night in November is shaping up to be a very competitive night, apparently Goof is going for the womens trophy as well as the mens.

In 2004 I bought a Corvette and parked it in the shed, found it the other day, so will wash it and hopefully have it on the road soon.

Trivia question; In what year didn't they make a Corvette?

Have a look at this website [www.corvettesaustralia.com](http://www.corvettesaustralia.com) and if you have any Corvette news that you want to share send it to Mark, details on the site.

Happy Vetting

[corvetteconversioncentre.com.au](http://corvetteconversioncentre.com.au)

Specialising in C3 (1968-1982) Corvettes, we can do anything from routine maintenance to ground up restorations. This includes conversions to Right Hand Drive and reconversions on cars that do not meet current standards. We have a large inventory of new and used parts and panels in stock. Any parts that you require that are not in stock are normally 10-14 days away, as we place orders to America on a weekly basis.

Corvette Conversion Centre is pleased to announce that we have developed brackets to mount the RRS Rack and Pinion steering system to C3 Corvettes. This will be the perfect solution for poorly converted Corvettes or if you just want a more modern feeling steering system.

## Members Car of the Month

Geoff Grant and Barbara Kowal  
1974 Stingray

Like many of us I fell in love with Corvettes at an early age and even five years ago did not think I would ever be in a position to have one. For me though it was always a C3 that I dreamed about! That Stingray shape is just beautiful.

Fast forward to 3.00 am on the 27th of July, 2018. We were awoken by a neighbour who said there was a fire behind our shed. Long story short, we lost our shed, several cars, 54 motorcycles and lots of other family history, collectables and historical stuff most of which was uninsured. But, the shed itself was insured so we duly arranged claims and got on with rebuilding.

Fast forward again to March 2019. Given that we no longer had our large collection of motorcycles, cars etc we had opted to put a smaller shed up and the rest of the space was established as garden. In March 2019 we were sitting there discussing the difference between the replacement cost of the large shed we had lost against the actual money spent on the smaller shed and beginning to plan what we could spend that difference on when a good long term friend posted on FaceBook that he was thinking of selling his Corvette. Barbara and I looked at each other and both realized the significance of the amount of difference in the shed values being almost exactly the price being asked for the car. Three minutes later, by FaceBook timer, we responded to his post with, 'Sold'. This was greeted with, but, but, but, ... I was only thinking about it...

It really wasn't a 'sight unseen' purchase though because having known Chris for many years we did know about the car and a lot about the condition it was in and what sort of modifications had been done to it so it really was an informed purchase.

A week later he drove it up to our place and there in our driveway sat my lifelong dream - a gleaming black 1974 Corvette Stingray with the T-top that I had always lusted after. Lowered a little, worked engine, good tyres, very neat interior and more, made me very happy. He had already been dubbed 'Ray' and carried his name and birth date on his number plate.

This car was the thing that turned the corner for us. After the fire we were devastated and took a long time to get our heads around what had happened. Rebuilding a shed and establishing the garden was therapeutic in many ways but Ray was our first toy as such and he put a smile on our faces every time we took him out. Suddenly we could see that there really was a future and it was worth pursuing.

Then February 2020 came around and whilst we were aware of the 'Corvettes Rock the Bay' event we had not really planned to be involved as we are usually away at a race meeting somewhere at that time of year. But, dates were a bit different and at the last minute we thought, 'Why not?' and sent off a message to the indomitable Catherine who informed us that we were too late to get an entry package but if we rock (pun intended) up on the day and saw her we could get in - thank you Catherine. So we did, and then after parking Ray wandered down to the Club tent where we joined on the spot and added to the club coffers via merchandise purchases. What with Covid and my race commitments we have not been to a lot of club events but with those that we have got to, along with our other forays around SA Ray has now done around 5,000 kms in our hands. Oh, and we have discovered that Ray has been in the Club for many years and we are now the third club member custodians of him.

Now, two years later, we have a couple of other toys as well but Ray is always eager to come out with us and still puts a smile on our faces every time he rumbles out of the shed.

Yes, he demands a bit of maintenance, but essentially he has been trouble free fun since we bought him. I do however have to relate a couple of incidents which he was involved in but certainly not to blame for.

First was only a few weeks after we bought him and we headed to Glenelg for lunch and some shopping. Upon returning to Ray we noticed a puddle under the back of him. The odour as we got closer identified it as fuel! Hmmm puddle of fuel with fuel still dripping down over the exhaust - I don't think I will start the car and I think I will stand guard to make sure no smokers come near while I call RAA, who then call the fire brigade!! Suddenly we have a fire truck, a policeman and a few locals in attendance. An hour later with fuel washed away and 2 fire extinguisher wielding firemen at the ready I fire up Ray's engine, said thanks for the help and headed home to check why the fuel had run out. Ultimately it was a combination of filling the tank a bit too much and then parking on a side slope.

The other incident occurred in Hahndorf. We were driving through and contemplating stopping for a stroll when up ahead we noticed another black C3 parked on the left with enough space for us to park behind him. We could not pass up the opportunity to have two black Stingrays parked nose to tail so pulled in. Barbara got out to head to her favourite shop and locked her door. I fuffed about for a minute or two before getting out and as I did so the owner (as it turned out) of the other one wandered up to say hello. As we chatted I got out and locked my door in preparation for a wander down the street. Almost as I shut the door I registered that I had not put the keys in my pocket and sure enough a quick look revealed them still in the ignition! No worries Barbara has a spare set in her bag just in case this situation should arise.

Quick call to her revealed that no, she had switched hand bags that morning to one that matched her clothes better and had not bothered to bring her spare keys!!! Meantime, talking to the other owner, I found out that he had actually broken down (power steering hose had burst) and he was awaiting the RAA. Oh good, I thought, when the RAA guy gets here he can get our keys out too. Well, he would but we had to ring and book the job first!! So while we did that quite a little crowd had gathered, first to admire these two similar cars but then as they realized what was going on, to have a little giggle about the situation. One small group in particular settled down on a nearby wall to watch! Eventually we had a job number for the RAA and he set to getting our keys out. Well that kept the onlookers entertained for some time. Turns out it is not so easy to break into a Corvette without doing damage - but half an hour later he succeeded and we had our keys. We said goodbye to everyone and rumbled off home.

We now look forward to many years of corvetting with some of the lovely people we have met through the club.

## **MEMBERSHIP PAYMENTS FOR 2022**

Hi Everyone,

Due to Covid and all the issues that it presents, this year for membership payments at the November and December meetings the club is looking at doing things differently. You can also start making your payments as of now and not wait for those meetings if you wish.

We would like members to use the BSB and Account details (see details below) that the club has available to PRE PAY your membership fees and log books where ever possible. As most of you would recall there are always huge line ups for paying membership fees, getting new log books and getting your log books signed. By paying (Membership Fees Only) in advance we are hoping that we can cut down on the waiting times and also adhere to the rules surrounding Covid.

We would require members to ensure that when making your payment that you include your SUR-NAME and MEMBERSHIP Number on your bank payment form. If these payments can be made no later than 4 days before the actual meeting, that will assist us in having receipts, cards and anything else that needs to be arranged in advance.

When you attend the meeting if you can bring along proof of your payment that will also assist in helping move things along more quickly. For those with Conditional registration we ask that you also bring along the following.

**Proof of Membership Payment for 2022 (EFT Receipt)**

**Your current log book**

**Current registration papers**

**LHD exemption if you have one**

**3 and 4 are not critical but will help us update both new and old log books.**

Again this year, there will also be a membership sign on gift for members who make their payments before the end of December. This gift will be limited to the first 100 payments and given that we have over 200 members the gift won't last long.

Thanks in advance for your help with making things run smoother at the meetings.

Hoping to see plenty there.

## Fathers Day Run to Saddleworth 5 Sep 2021

Sunday morning, we arrived at Caltex Bolivar with all of the cruisers; Peter, Lynda, Larry, Kathy, Jim, Catherine & also a newer member, Mark Holland (Dutch) who arrived 1<sup>st</sup>. After a greeting to all, paperwork done, Captain made his speech. After leaving Caltex Service Station along Pt Wakefield Rd to Waterloo Cnr turn off, onto Gawler Expressway to Horrocks Hwy; But... a mandatory U-turn came into play as I missed the turn off. Haa Haa I was told this was the quickest & shortest U-turn negotiated. Might as well get it out of the way?? Then we were back on track. Finally on the freeway, 5 Corvettes motoring along, arriving at our turn off onto Horrocks Hwy. No mistakes this time. The weather was a little bit cool, small amount of rain, we also got held up with cyclists, but got past easily then the rest of the cruise went smoothly, rolling into Saddleworth, we turned a few heads as we rumbled through town before parking in front of the Gilbert Valley Hotel. This was our lucky day as the monthly market was on, so off we go shopping. Great fun, plenty to see & buy. Then we all head back for lunch. A little wait for order, but boy, what a meal. The stories & laughter filled the small hotel. As time got away from us, I suggested a further cruise to Clare, Blythe, Balaklava, Mallala where we stopped for a break. We all said our goodbyes to fellow club members. This was my first time as cruise captain & to all who attended, thank you for making it pleasant. Cheers Graeme & Joy Walker

## FRIDAY NIGHT DINNER AT HILTON HOTEL 17/9/21

27 Members turned up to the Hilton Hotel to enjoy a great meal, good company & a belated Fathers day treat with empty stubbies on the table from the new Corvette Craft Brewery. Each person also got a small packet of sweets.

It was especially good to see some newer members come along. Thanks Mark (Dutch) & Tim.

Also good to have many regular members turn up too.

Thank you to all who came to make it an enjoyable night with plenty of laughter & stories.
